

MAKE A PERSONALIZED LUGGAGE STRAP

1. Measure item you want the strap to go around and add 6 to 8 inches more.
2. Slide male portion of the side release buckle on first, then the tri-glide.
3. Fold webbing between the male portion and the tri-glide.
4. Stitch end down.

5. Thread opposite end of webbing through the tri-glide.
6. Slide female end onto webbing and stitch end down.

To embroider: Use hoopless method ~ hoop lightweight tearaway and spray with 505 temporary adhesive onto the stabilizer. Position webbing onto the stabilizer and stitch. Since, a luggage strap is really long you can embroidery your message 3 to 4 times on the webbing.

Great with metallic webbing or cotton webbing.
You could even follow these instructions for a dog collar!
